

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 1 August 1962

1. (Unclassified - GLC) Talked further with Kurt Borchardt, of the House Committee on Interstate and Foreign Commerce staff, concerning our interest in the Communications Act amendment (H.R. 11732). Advised him we had attempted to reach Chairman Harris to discuss our interest with him, however, Harris is out of the city for the Arkansas primary today. I told Borchardt we would attempt to see the Chairman tomorrow morning before the hearing if possible, otherwise we would contact him at the Chairman's convenience at a later date.

3. (Unclassified - GLC) George Murphy, of the Joint Committee on Atomic Energy staff, called and asked if the Director could come up to give the Committee its annual briefing on Thursday, 9 August, in the afternoon. He indicated if the Director could not make it on the 9th an alternative date might be the following Thursday, the 14th. After checking with the Director's office, I advised Murphy the Director could not appear before the Committee on the 9th and indicated from the Director's standpoint the 14th looked like a better day. I suggested to Murphy that he check with the Committee on this date and let me know. He said he would do so.

4. (Internal Use Only - JSW) The Director appeared before the CIA Subcommittees of Senate Armed Services and Senate Appropriations Committees. A transcript was taken of this meeting.
